# PRODUCT INFORMATION(<sup>1</sup>)

### Model(s): Information to identify the model(s) to which the information relates:

### Outdoor: PUHZ-ZRP125VKA3

Indoor: PLA-M125EA

Outdoor side heat exchanger of air conditioner: air

Indoor side heat exchanger of air conditioner: air

Type: compressor driven vapour compression

If applicable: driver of compressor: electric motor

(\*) If  $C_{dc}$  is not determined by measurement then the default degradation coefficient air conditioners shall be 0,25. (\*\*) From 26 September 2018.

Where information relates to multi-split air conditioners, the test result and performance data may be obtained on the basis of the performance of the outdoor unit, with a combination of indoor unit(s) recommended by the manufacturer or importer.

#### Recycle

Your MITSUBISHI ELECTRIC product is designed and manufactured with high quality materials and components which can be recycled and reused.

Electrical and electronic equipment, at their end-of-life, should be disposed of separately from your household waste.

Please, dispose of this equipment at your local community waste collection/recycling center.

In the European Union there are separate collection systems for used electrical and electronic product.

Please, help us to conserve the environment we live in!

# PRODUCT INFORMATION(1)

Information to identify the model(s) to which the information relates:

Outdoor: PUHZ-ZRP125VKA3 Indoor: PLA-M125EA

Outdoor side heat exchanger of heat pump: air

Indoor side heat exchanger of heat pump: air

Indication if the heater is equipped with a supplementary heater: no

If applicable: driver of compressor: electric motor

Parameters shall be declared for the average heating season, parameters for the warmer and colder heating seasons are optional.
